Important Notes

- A Proforma Invoice is not a commercial invoice; it is a preliminary bill of sale sent to buyers in advance of shipment or delivery of goods.
- It is commonly used for customs purposes, pre-shipment approvals, and opening letters of credit.

- Ensure all details, especially payment terms and specification of goods, are accurate and agreed upon.
- No payment is made based solely on a Proforma Invoice.
- Always issue a final Commercial Invoice once the order is confirmed and ready for export.
