

Agricultural Loss Adjustment Document

Policy Number AG-12345678
Date of Report 2024-06-15
Claimant Name John Doe
Farm Location Green Valley, Iowa
Crop Type Corn
Planting Date 2024-04-10
Acreage Planted 80 acres
Date of Loss 2024-06-10
Cause of Loss Hailstorm
Reported By John Doe

Loss Assessment

Field Section	Acreage	Estimated Damage (%)	Estimated Yield Loss (bushels)
North Field	40	70	2800
South Field	40	45	1800

Total Estimated Loss 4600 bushels
Adjuster's Name Mary Smith
Inspection Date 2024-06-13

Adjuster's Remarks

Significant crop damage evident due to hail impact. Both fields show physical loss consistent with reported incident and weather records. Yield loss projections calculated as per standard guidelines.

Important Notes

- All reported losses must be documented with supporting evidence and timely reported.
- Inspection by a certified adjuster is required before settling any claim.
- Partial losses and their calculations must be outlined clearly per field/section.
- Maintain accurate records for audit and compliance purposes.
