\$105.50

Total Due:
\$1,160.50

Important Notes

- Grayscale JPEGs use only shades of gray and do not support color content.
- This format is ideal for scanned documents where color is not required.
- Images should be saved at sufficient resolution for clear text (recommended: 300 DPI).
- JPEG compression is lossy; avoid excessive compression to reduce artifacts.
- Ensure that scanned invoices are legible and all required information is visible before archiving.
