<b>Total</b>	<b>\$120,000</b>	<b>\$118,500</b>	<b>-\$1,500</b>

**Important Notes:**

- This summary provides a quick visual reference for how income is allocated among expenses, savings, and investments.
- Percentages illustrate the proportion of each category relative to total income.
- Variances indicate differences between planned (budgeted) and actual amounts, highlighting over/underspending.
- Infographic format allows fast understanding and is suitable for presentations, reports, or stakeholder updates.
- Always verify figures and update regularly for accurate tracking and transparency.
