## Key Assumptions

Assumption	Details
Sales Growth Rate	Estimated 3-5% monthly increase based on marketing efforts and seasonal trends.
Service Income	Steady demand anticipated with slight variance across quarters.
Other Income	Includes grants, interest, and other miscellaneous sources.

## Important Notes

- Revenue projections are estimates and should be reviewed regularly as business conditions change.
- It's important to base assumptions on historical data and market research where possible.
- This document focuses only on projected income and should be used alongside expense and cash flow forecasts.
- Be conservative in projections to avoid overestimating financial performance.
- Document all assumptions and methodologies for future reference and transparency.
