---

<b>Total</b>	<b>4,70,700</b>	<b>4,70,700</b>
--------------	-----------------	-----------------

---

### Important Notes

- Trial balance ensures total debits equal total credits before preparing financial statements.
- Sections categorize balances for clarity: Assets, Liabilities, Equity, Income, and Expenses.
- Discrepancies between total debits and credits indicate possible errors in entries.
- This document is typically prepared at the end of an accounting period.
- Trial balance does not guarantee absence of all errors (e.g., compensating errors may go undetected).
