Water Quality			
Soil & Land			
Flora & Fauna			
Noise			
Waste Management			
Community & Social			
Other (Specify)			

Conclusion & Recommendations

Prepared by:

Name: _____
Position: _____
Signature: _____
Date: _____

Important Notes:

- This evaluation format should be tailored to the specific project and site context.
- Description of impacts and mitigation plans must be as specific and quantified as possible.
- The document should be used as part of a transparent project approval and monitoring process.
- All relevant stakeholders should have access and opportunity to provide input to the evaluation.
- Regular review and updating of mitigation measures is recommended throughout the project lifecycle.
