

# Project-Based Budget Comparison

## 1. Project Overview

**Project Name:** ABC Website Redesign

**Prepared by:** Jane Doe

**Date:** 2024-06-25

### Objective:

To compare the budget proposals from different vendors for the ABC Website Redesign project.

## 2. Budget Comparison Table

Cost Item	Vendor A	Vendor B	Vendor C
Design & UX	\$5,000	\$4,500	\$5,200
Development	\$12,000	\$13,500	\$11,800
Testing & QA	\$2,000	\$2,300	\$2,100
Project Management	\$1,500	\$1,800	\$1,600
Maintenance (12 months)	\$3,000	\$2,800	\$3,200
<b>Total</b>	<b>\$23,500</b>	<b>\$24,900</b>	<b>\$23,900</b>

## 3. Analysis & Remarks

Vendor A offers the most competitive pricing, while Vendor C provides slightly more services for a marginally higher cost. Vendor B has the highest estimate, particularly in the development phase. Other factors such as quality, timeline, and previous performance should also be considered alongside cost.

### Important Notes:

- Ensure all cost items are clearly defined to avoid ambiguity.
- Compare not only costs, but also deliverables, quality, and payment terms.
- Regularly update document as new proposals or changes arise.
- Document assumptions or exclusions noted by vendors.
- Maintain transparency for all stakeholders.
