

Comparative Findings Table

This document summarizes key findings across multiple solutions for project evaluation.

Table of Comparative Findings

Criteria	Solution A	Solution B	Solution C
Feature Coverage	Comprehensive; covers 90% of requirements	Moderate; 75% coverage	Basic; 60% coverage
Cost	High (\$10,000/year)	Medium (\$6,500/year)	Low (\$4,000/year)
Ease of Integration	Seamless with current system	Requires API customization	Manual integration required
Scalability	Highly scalable	Scalable with extra modules	Limited scalability
User Support	24/7 support available	Email & business hours only	Basic documentation
Implementation Time	2 weeks	1 month	3 months

Important Notes

- Comparative tables provide objective insights that support decision-making.
- Consistent criteria are essential for clear comparisons across all solutions.
- Document should be regularly updated if new findings or solutions emerge.
- Providing context for each criterion enhances the usefulness of the analysis.
