

Labeling Figures and Tables in Appendix Documents

This document demonstrates correct labeling and captioning of figures and tables in appendix sections, following common academic standards.

Appendix A

Figures

Sample Chart

Figure A1. Sample chart showing placeholder data for demonstration.

Process Diagram

Figure A2. Example process diagram used in the appendix section.

Tables

Category	Value
Sample 1	32
Sample 2	44
Sample 3	29

Table A1. Sample data values corresponding to Figure A1.

Step	Description
1	Initialize process
2	Execute operation
3	Finalize and review

Table A2. Data summary for process steps shown in Figure A2.

Important Notes

- In appendix documents, label figures and tables with the appendix letter (e.g., Figure A1, Table A1).
- Place table captions above or below the table consistently; in this sample, below the table.
- Always include descriptive captions for figures and tables for clarity and reference.
- Start numbering at 1 for each appendix (e.g., Table A1, Table B1 for Appendix B, etc.).
- References to figures and tables within the appendix should use their specific labels.
