Thematic Glossary Categorization Format

Theme 1: Environmental Science

Term	Definition	Example
Biodiversity	The variety of life in the world or in a particular habitat.	The Amazon rainforest is known for its high biodiversity.
Sustainability	Meeting current needs without compromising future generations' ability to meet theirs.	Using renewable energy sources supports sustainability.

Theme 2: Economics

Term	Definition	Example
Inflation	A general increase in prices and fall in the purchasing value of money.	Inflation can reduce the real value of savings.
Supply and Demand	The amount of a commodity available and the desire of buyers for it.	If demand exceeds supply, prices tend to rise.

Theme 3: Digital Technology

Term	Definition	Example
Algorithm	A step-by-step procedure for solving a problem or completing a task.	Google's search engine uses complex algorithms.
Encryption	The process of converting information into a code to prevent unauthorized access.	Email services use encryption to protect messages.

Important Notes

- Thematic glossary categorization groups terms by related topics for easier reference.
- Consistent formatting for term, definition, and example enhances clarity.
- Categories (themes) can be adapted to the needs of a particular field or project.
- Regular updates and peer review help maintain accuracy and relevance.
