

Graphical Data Presentation Formats

1. Bar Chart

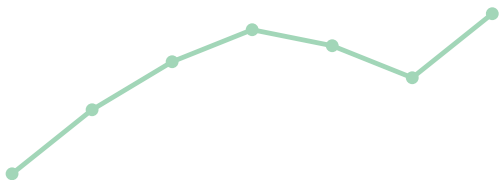

Q1

2. Pie Chart

Product A
Product B
Product C

3. Line Chart

Important Notes:

- Choose the graphical format based on the nature of your data and the message you want to communicate.
- Bar charts are ideal for comparing quantities across categories.
- Pie charts illustrate proportion or percentage of a whole.
- Line charts are best for showing trends over time.
- Keep graphical presentations simple, clear, and labeled properly for better understanding.
