Final Deliverables and Acceptance Criteria

Project: Website Redesign Initiative

Date: June 18, 2024

Client: ABC Corporation

Final Deliverables

1. **Responsive Corporate Website**
   - All required pages: Home, About, Services, Blog, Contact
   - Fully functional navigation and contact forms
   - Optimized for desktop, tablet, and mobile devices

2. **Brand Style Guide**
   - Usage guidelines for logo, colors, and typography
   - Sample applications and templates

3. **Source Files**
   - Design assets and layered files (Figma/PSD)
   - HTML, CSS, and JavaScript source code

4. **Deployment & Handover**
   - Live deployment to client's hosting environment
   - Administrator manual in PDF format

Acceptance Criteria

Deliverable	Acceptance Criteria
Responsive Website	- All specified pages are present and functional - Content displays correctly on major browsers (Chrome, Edge, Safari, Firefox) - Loads in less than 3 seconds on standard connections
Brand Style Guide	- Includes color palette, fonts, and logo guidelines - Delivered as PDF and source file
Source Files	- Files are properly named and organized in folders - All assets included and accessible
Deployment & Handover	- Website accessible via public domain - Client receives admin credentials and PDF manual - Deployment confirmed with client sign-off

Important Notes

- Acceptance criteria must be measurable and testable.
- Both parties should review and agree to all deliverables before work begins.
- Changes to deliverables or criteria require a formal change request.
- Document serves as a basis for final project sign-off and payment release.
- Attach additional documentation as needed (annexes, detailed specs).
