

# Emissions and Air Quality Data Reporting Format

## 1. Facility Information

Facility Name	
Location Address	
Reporting Period	
Contact Person	
Email / Phone	

## 2. Emissions Data

Source/Process	Pollutant	Quantity Emitted (kg)	Emission Limit (if applicable)	Measurement Method

## 3. Ambient Air Quality Monitoring Data

Sampling Location	Date/Time	Pollutant	Measured Concentration ( $\mu\text{g}/\text{m}^3$ or ppm)	Regulatory Limit	Instrument Used

## 4. Additional Comments/Observations

--

## Important Notes

- Ensure all reported data are accurate and supported by appropriate records and measurement logs.
- Report all values in consistent units as specified in the table headers.
- Attach calibration certificates and QA/QC documentation if applicable.
- Refer to relevant local/regional regulations for applicable limits and reporting requirements.
- Do not leave any field blank; indicate "Not Applicable" or "Below Detection Limit" where appropriate.
