## Weather Alerts & Recommendations

- Keep tents and light equipment secured as gusts may increase after midday.
- Monitor for updates regarding potential thunderstorms in late afternoon.
- Recommend hydration stations due to warm temperatures.
- Emergency exits to remain unobstructed throughout event hours.

## Important Notes

- This report provides a brief overview tailored for same-day event planning.
- Forecast values may vary; monitor official weather updates for significant changes.
- Event safety teams should coordinate with weather services for real-time alerts.
- All times are local and forecasts are updated at least every 6 hours on event days.
