

Atmospheric Pressure Daily Chart

Station Name: _____
Date: ____ / ____ / ____
Location: _____
Observer: _____

Time	Barometer Reading (hPa)	Temperature ($^{\circ}$ C)	Corrected Pressure (hPa)	Remarks
06:00				
09:00				
12:00				
15:00				
18:00				
21:00				

Important Notes

- Record measurements at the specified times for consistency.
- Ensure the barometer is calibrated and correctly positioned before each reading.
- Corrected pressure should account for temperature and altitude.
- Note any unusual weather events or instrument issues in the remarks.
- This chart helps track atmospheric trends and can support weather forecasting or research.
