

# Quarterly Revenue Forecast Report

**Company:** Acme Corporation

**Department:** Finance

**Report Period:** Q2 2024

**Date Prepared:** June 13, 2024

## Executive Summary

This report presents the projected revenue for Acme Corporation for the second quarter of 2024. The forecast is based on current sales trends, market analysis, and input from relevant departments. Potential risks and opportunities are also highlighted.

## Revenue Forecast Overview

Month	Forecasted Revenue	Actual Revenue (to date)	Variance	Key Notes
April 2024	\$1,200,000	\$1,170,000	-\$30,000	Below forecast due to delayed shipments
May 2024	\$1,350,000	\$1,360,000	+\$10,000	Exceeded forecast due to new client acquisition
June 2024	\$1,400,000	N/A	N/A	End-of-quarter promotions planned

## Analysis & Assumptions

- Forecast is based on existing contracts, pipeline opportunities, and historical data.
- Market conditions are assumed to remain stable for the quarter.
- Assumes timely delivery and no major disruptions.

## Risks & Opportunities

- Risks:** Supply chain delays, increased competition, potential pricing pressure.
- Opportunities:** Expanding product lines, upcoming promotions, targeting new industry sectors.

## Important Notes

- This document provides revenue guidance and should be updated as new data becomes available.
- The report assists in internal planning and is not intended for external publication unless authorized.
- All assumptions and risks should be regularly reviewed for accuracy.
- Supporting documentation and data sources should be referenced for transparency.
