

# SKU-Level Production Plan Report

**Report Date:** 2024-06-08

**Prepared By:** Production Planning Department

**Plan Period:** 2024-06-01 to 2024-06-30

## Production Plan Summary (by SKU)

SKU Code	Description	Opening Inventory	Planned Production	Forecasted Sales	Ending Inventory	Remarks
SKU-1001	Red Widget A	500	1,200	1,100	600	Regular production
SKU-1002	Blue Widget B	350	1,000	850	500	Anticipated demand rise
SKU-1003	Green Widget C	200	800	900	100	Stock clearance
SKU-1004	Yellow Widget D	150	600	400	350	Increased buffer stock

### Important Notes:

- This document serves as the primary reference for production scheduling at the SKU level.
- All forecasted sales figures are based on the latest demand projections and may be updated monthly.
- Planned production quantities should be reviewed periodically against actual performance.
- Any significant deviations between plan and actuals must be reported to the management team.
- Inventory levels are monitored to prevent overstocking or stock-outs and ensure continuous supply.
