    </Line>
  </InvoiceLines>
  <TaxTotal>80.00</TaxTotal>
  <GrandTotal>1080.00</GrandTotal>
</Invoice>
```

Important Notes

- All mandatory elements should be present in the XML structure for validity.
- Data formats (e.g., dates, numbers) should comply with the required specifications or schemas.
- Each invoice must include unique identifiers for invoice, seller, and buyer.
- Additional elements or information may be required based on regional or legal requirements.
- Ensure the XML file passes schema validation before submission.
