

Load Forecast Data Tables

1. Annual Peak Load Forecast (MW)

Year	Area A	Area B	Area C	Total
2024	320	420	210	950
2025	330	438	220	988
2026	340	455	228	1023
2027	350	471	236	1057
2028	360	487	245	1092

2. Annual Energy Demand Forecast (GWh)

Year	Area A	Area B	Area C	Total
2024	1780	2590	1080	5450
2025	1835	2650	1120	5605
2026	1889	2710	1159	5758
2027	1946	2770	1204	5920
2028	1999	2834	1244	6077

3. Monthly Load Forecast (MW) - 2024

Month	Area A	Area B	Area C	Total
Jan	290	398	200	888
Feb	300	410	205	915
Mar	305	415	208	928
Apr	310	420	210	940
May	315	425	212	952
Jun	320	430	215	965
Jul	322	434	217	973
Aug	320	432	216	968
Sep	315	426	213	954
Oct	310	420	210	940
Nov	305	415	208	928
Dec	300	410	205	915

Important Notes

- All forecast values are based on current available data and subject to revision.
- Assumptions include normal weather and stable economic growth.
- Actual demand and load may vary due to unforeseen events or operational changes.
- Areas classified as A, B, and C can represent different grid regions or customer segments.
- These tables are essential for planning resource adequacy and infrastructure investments.
