

Geographic Sales Forecast Document

Date: June 30, 2024
Prepared by: Alex Nguyen, Sales Analyst

1. Executive Summary

This document presents a projected sales forecast segmented by geographic regions for Q3 and Q4 2024. The analysis is based on historical sales data, current pipeline activity, and regional economic indicators.

2. Sales Forecast by Region

Region	Q3 Forecast (units)	Q4 Forecast (units)	% Change vs. Previous Year
North America	13,000	14,800	+7.2%
Europe	9,200	10,350	+5.9%
Asia-Pacific	15,400	17,200	+10.8%
Latin America	3,800	4,100	+4.5%
Middle East & Africa	2,300	2,600	+3.3%

3. Methodology

- Analyzed year-over-year sales for the last 8 quarters.
- Weighted average applied to pipeline probability and opportunity size.
- Adjusted for current regional economic climate and major industry events.
- Collaboration with local sales teams for recent insights and market intelligence.

4. Key Regional Drivers

North America

- Strong performance expected from healthcare and automotive sectors.
- New product launch scheduled in September may further boost Q4 demand.

Asia-Pacific

- Rapid growth in electronics and consumer goods anticipated.
- Supply chain stability expected to improve order fulfillment rates.

5. Summary Table

Total Forecast Q3 2024	43,700 units
Total Forecast Q4 2024	49,050 units
Overall Year-on-Year Growth	+7.5%

Important Notes

- Geographic sales forecasts are estimates based on current available data; actual sales may vary.
- Regular review and adjustment of regional forecasts are recommended as new data emerges.
- Tracking regional trends helps identify growth opportunities and potential risks.
- This document should be used to inform inventory planning, budgeting, and resource allocation.
