    "totalCurrency"
  ]
}
```

Important Notes

- Line items may specify amounts in different currencies; ensure currency field is provided per line if applicable.
- Always record and display exchange rates used for currency conversions on the invoice date.
- Total, subtotal, and tax amounts should clearly indicate their respective currencies.
- Accurate conversion rates are essential for compliance and clarity between buyer and seller.
- Consult local regulatory standards for additional requirements when issuing multi-currency invoices.
