| Processing/Handling Fee | 1 | \$5.00 | \$5.00 |
| Total | | | \$55.00 |

Sample GIF Invoice Image:**Important Notes about GIF Invoice Image File Format:**

- GIF invoices present billing information visually as an image file, not as machine-readable text.
- They are suitable for simple, graphics-based or visual records, but are not ideal for automated data extraction.
- GIFs support limited color palettes and may not be best for complex or color-rich invoice documents.
- Always ensure important details (amount, invoice number, contacts) are clearly readable within the image.
- For compliance or accessibility, provide a text or PDF version alongside the GIF image invoice.
