

Sample CSV Invoice File: Date and Number Formatting

Sample CSV Data:

```
Invoice No,Invoice Date,Due Date,Customer,Amount,Tax Rate,Total Due
INV-1001,2024-05-12,2024-06-12,Acme Co.,1250.00,0.10,1375.00
INV-1002,2024-05-15,2024-06-15,Globex Inc,950.50,0.10,1045.55
INV-1003,2024-05-18,2024-06-18,Wayne Enterprises,5000.99,0.08,5400.99
```

Table Representation:

Invoice No	Invoice Date	Due Date	Customer	Amount	Tax Rate	Total Due
INV-1001	2024-05-12	2024-06-12	Acme Co.	1250.00	0.10	1375.00
INV-1002	2024-05-15	2024-06-15	Globex Inc	950.50	0.10	1045.55
INV-1003	2024-05-18	2024-06-18	Wayne Enterprises	5000.99	0.08	5400.99

Important Notes:

- Dates are formatted as **YYYY-MM-DD** (ISO 8601 standard) for consistency and compatibility.
- Amounts and numbers use a **period (.) as decimal separator**, with no thousands separator.
- Tax rates are represented in **decimal format** (e.g., 0.10 for 10%).
- Ensure all values are properly quoted if using commas inside text fields.
- CSV files should use UTF-8 encoding for best compatibility.
