Introduction

This document is designed to allow a legally authorized representative, proxy, or guardian to provide informed consent on behalf of a cognitively impaired individual who is unable to provide informed consent for participation in the above-mentioned research study.

Description of Study

Briefly describe the purpose, procedures, duration, risks, and benefits of the study

Proxy Statement of Understanding

I have read (or had read to me) and understand the information about this research study. I have had the opportunity to ask questions and have my questions answered. As the legally authorized representative of the participant named above, I voluntarily agree to their participation in the research study.

Withdrawal

Participation is voluntary. The participant or I may withdraw consent and discontinue participation at any time without penalty or loss of benefits to which the participant is otherwise entitled.

Important Notes

- This form must be completed by a legally authorized representative of the cognitively impaired subject.
- Ensure that all information provided is accurate and complete.
- The proxy should fully understand the risks, benefits, and the nature of the study before providing consent.
- Participation is voluntary, and withdrawal is permitted at any time without negative consequences.
- This consent does not replace other necessary legal or ethical approvals.
