

# Personal Statement for Scholarship Application

## Hybrid Format Sample

### INTRODUCTION

My name is Alex Kim, and I am currently a senior at Greenfield High School, aspiring to pursue a bachelor's degree in Computer Science at the University of Vision. I am applying for the Visionary Scholars Program to support my academic journey and fulfill my long-term goal of creating accessible technology for underserved communities.

### ACADEMIC ACHIEVEMENTS

Throughout my high school years, I have consistently maintained a GPA above 3.9, ranking in the top 5% of my class. My passion for learning led me to participate in the Advanced Placement program, where I excelled in AP Computer Science, AP Calculus, and AP English Language. In addition, I received the STEM Innovator Award in 2023 for an assistive reading app I developed for visually impaired students.

### MOTIVATION AND ASPIRATIONS

Growing up in a community with limited access to technology, I witnessed firsthand how the digital divide can hinder education and opportunity. This fueled my determination to create solutions that bridge this gap. My goal is to combine my technical expertise and social awareness to develop impactful tools and platforms. Attending University of Vision will provide me with the mentorship and resources I need to achieve this mission.

### LEADERSHIP AND SERVICE EXPERIENCE

As the president of our school's Coding Club, I spearheaded workshops for beginners and organized our first ever Hack for Good event, resulting in projects supporting local nonprofits. Volunteering with the Digital Literacy Project, I have taught fundamental computer skills to over 50 adults in my neighborhood, a humbling and inspiring experience that has shaped my perspective.

### CONCLUSION

The Visionary Scholars Program will not only alleviate my financial challenges but also connect me with a community of driven individuals. I am eager to contribute my perspective, skills, and drive for positive change.

Thank you for considering my application.
