  "status": "unpaid",  
  "notes": "Thank you for your business.",  
  "terms": "Payment due within 14 days."  
}
```

Important Notes

- Recurring invoices automate billing for repeat services or products.
- The `recurrence` section defines frequency, intervals, and schedule boundaries.
- Always store `next_invoice_date` to keep track of upcoming invoices.
- Each invoice instance should have a unique `invoice_id`.
- Review tax calculations as rates may change over time.
- Store customer data securely and comply with data privacy regulations.
