  "taxAmount": 0.64,  
  "totalAmount": 13.39,  
  "paymentMethod": "Cash"  
}
```

Important Notes

- Simplified invoices are typically used for sales below a specific threshold and may not require full buyer information.
- Ensure the invoice includes a unique number, date, seller information, description of goods/services, and total amounts.
- Tax rate and calculated amounts should be explicitly stated for compliance.
- Format and content requirements may vary by country or jurisdiction—verify local regulations.
- Simplified invoices are usually not valid for input tax deduction purposes.
