Important Notes:

- This invoice format follows key elements as per UBL (Universal Business Language) specifications.
- UBL defines standardized XML representations for invoices, but this HTML is for human-readable presentation/reference.
- Actual UBL invoices should be shared as XML files for e-invoicing automation and validation.
- Ensure mandatory fields (supplier, buyer, tax, and totals) are always present in electronic exchanges.
- Check local legal requirements for additional fields and proper digital signatures if submitting electronically.
