SWIFT: GNBAUS33
Payment Reference: INV-2024-1102

Important Notes about Uncompressed TIFF Invoice Format:

- Uncompressed TIFF files are image-based and preserve original visual fidelity, ideal for archiving or regulatory compliance.
- TIFF invoices cannot be edited without image-editing software and do not support embedded text data layers for searchability.
- Some accounting or ERP systems may not recognize TIFF images for automated data extraction; PDF or XML may be preferred for digital workflows.
- File sizes are generally larger compared to compressed formats, resulting in increased storage and transfer requirements.
- Always verify recipient acceptance of TIFF format before use for invoicing purposes.
