

# Segment-wise Gross Profit Calculation Template

**Company:** [Your Company Name Here]

**Period:** [Month/Quarter/Year]

Segment	Revenue	Cost of Goods Sold (COGS)	Gross Profit	Gross Profit Margin (%)
Segment A	100,000	60,000	40,000	40.0
Segment B	75,000	55,000	20,000	26.7
Segment C	50,000	35,000	15,000	30.0
<b>Total</b>	<b>225,000</b>	<b>150,000</b>	<b>75,000</b>	<b>33.3</b>

## Important Notes

- Ensure accurate allocation of revenue and direct costs to each segment for reliable gross profit figures.
- Indirect costs (e.g., administration, marketing) are typically excluded from COGS in segment-wise gross profit calculations.
- Gross profit margin per segment helps to identify the strongest and weakest business areas.
- Regularly update templates and validate data with supporting documentation.
- This template can be tailored to fit additional segments or specific business requirements.
