Important Notes

- This report details gross profit per item, based on the sales, costs, and quantities for the selected period.
- Unit Cost and Unit Price are exclusive of sales taxes and discounts unless otherwise specified.
- Gross Profit = Total Sales – Total Cost, and Gross Profit % is calculated on Total Sales.
- Please verify all figures with your accounting records; discrepancies may occur due to data entry or timing.
- This report aids management in product-wise profit analysis, pricing strategies, and inventory control.
